KYRIBA FACT SHEET

Kyriba for Private Markets

Advanced Treasury Solutions for Private Equity, Private Credit, and Fund Managers

Kyriba delivers trusted treasury, payments and connectivity solutions for Private Market (PM) organizations—covering private equity, private credit, and fund administration. Our secure, cloud-based platform centralizes cash visibility, unifies workflows, and drives real-time insights for both firm treasury and portfolio oversight. With workflow automation, AI-powered fraud detection, and best-in-class ERP and bank connectivity, Kyriba helps PM firms streamline operations, ensure compliance, and build investor trust.

Why Private Markets Choose Kyriba

- Solves operational complexity, manual effort, risk, and compliance challenges
- Modular, cloud platform scales with growth and bolt-ons
- Demonstrated operational risk reduction, improved reporting, and faster integration
- Continuous innovation in AI, automation, and treasury digitization

What Sets Us Apart

- Direct connections to 10,000+ banks, 73,000+ format scenarios, fully managed Bank-Connectivity-as-a-Service (BCaaS)
- 450+ financial services customers, including top-tier Private Equity, Private Credit, and Fund Administrators
- Cloud-native, continuously updated with AI and automation

Solving Private Markets Challenges

- Unified cash visibility, automated intercompany workflows, configurable reporting
- Seamless integration with ERPs, fund admins, and banks; automated reconciliation
- Automated regulatory and Limited Partnership (LP) reporting; customizable dashboards
- Multi-layered security, AI-powered fraud protection, real-time controls
- Rapid onboarding, modular platform for acquisitions and bolt-ons
